Immersive Digital Experience

SODACLICK IS THE DRIVING FORCE, FOR HTML5 DIGITAL SIGNAGE CONNECTED GRAPHICS, AND SOLUTIONS

MISSION STATEMENT

Sodaclick at the core we have started our journey with digital signage content creators, we wanted to make this experience simple and convenient for any individual/business to enable them to create engaging content easily without having to learn how to use complex applications.
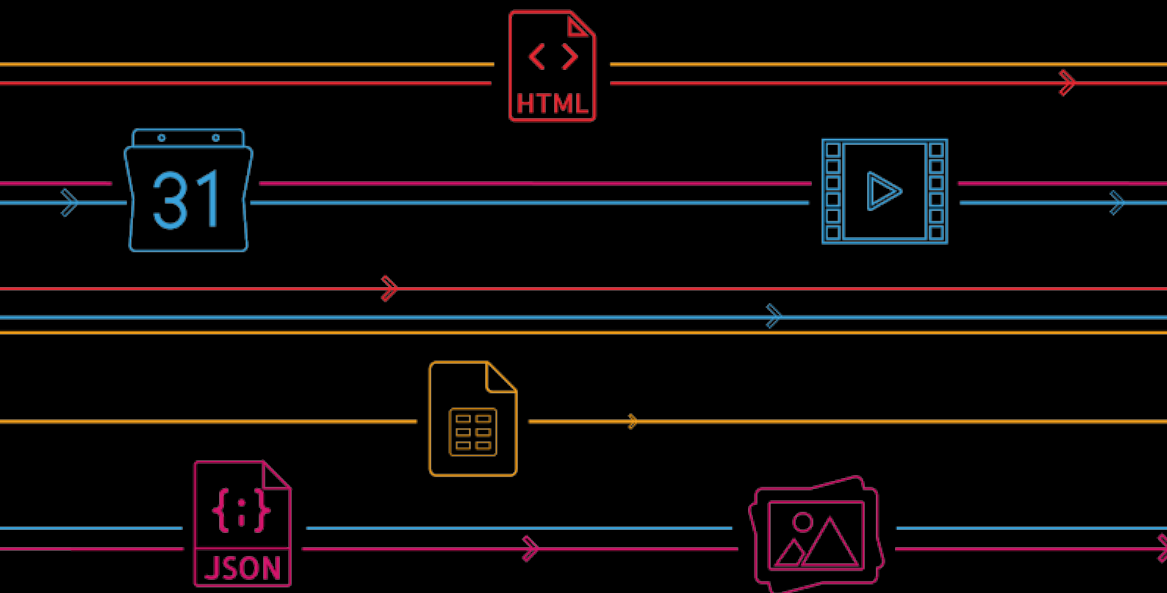

The Sodaclick cloud based content creator for digital signage was designed to help businesses excel and manage their digital content easily without the hassle of dealing with external design agencies.

ABOUT SODACLICK

Sodaclick is a cloud based platform for creating dynamic digital signage content and smart solutions. The foundations of Sodaclick are the 'Create, publish and update' mantra, that results in high-impact, animated, 4K HTML5 content through the single URL mechanism.

It is a simple, yet powerful, all inclusive 4K HTML5 content creator with over 3 million royalty free assets, and a creative template gallery covering many verticals all done easily and without a single line of code. The Sodaclick creative platform allows creative platform, output playlist, touch, data and voice enabled solutions through a single URL, for your digital signage screens, menu boards, POS and kiosk systems across various markets, including hospitality, retail, education, public spaces, and QSR's.
